SINGLE ORIGIN	SMALL BATCH	FAMILY FARMS	CONSERVATION
---------------	-------------	--------------	--------------

Each of our malts is a single origin snapshot of time, place, and varietal. Our investment in identity preservation and small batch malting allows you to trace unique qualities and flavors straight back to specific fields of origin. Most importantly, you'll like what you see when you get there. Each pound of malt we sell supports premium crop opportunities for family farms looking to fund conservation projects at a landscape scale. We all have a lot of rewarding work ahead of us.
